

BS EN/EN60335-1 ANSI/AAMI ES60601-1 BS EN/EN60601-1 IEC60601-1

Features

- 1.93"x0.94" compact size
- · Medical safety approved (2 x MOPP) according to ANSI/AAMI ES60601-1 and IEC/BS EN/EN60601-1
- Suitable for BF application with appropriate system consideration
- No load power consumption<0.1W
- Extremely low leakage current
- Wide operating temp. range -35 ~ +85°C
- Protections: Short circuit / Overload / Over voltage / Over temperature
- No minimum load required
- · 3 years warranty

Applications

- Portable medical device
- · Mobile clinical workstation
- Medical computer monitor
- · Medical examination instrument

Description

MFM-20 is a 20W high density and small size (49*23.8*23mm) AC/DC on board type medical power supply series. It features the operation for 80~264VAC, a low no load power consumption less than 0.1W, a high efficiency up to 87%, Class II (no FG) double insulation, outstanding dissipation, 5G anti-vibration, high EMC performance, 4KVAC isolation, etc. The design observes IEC/BS EN/EN60601-1 and ANSI/AAMI ES60601-1 version three with 2xMOPP level and ultra-low leakage current(<80 \(\mu \) A). It is very suitable for BF (patient contact) type medical device or relevant equipment.
